

A SUSTAINABILITY ACTIVITY

1 Complete the table with *your* ideas.

	General topic	Link to sustainability
Example	Food	1. Vegetarian and vegan diets 2. Food miles: the distance food travels 3. Fast food vs slow food
Your ideas		1. 2. 3.

THINK ABOUT WHAT YOU ALREADY KNOW

2 Choose the best idea from question 1. Then complete part (a) with a topic and part (b) with a list of things you know about the topic.

Green topic:	(a)		
(b) What I know	(c) What I want to find out	(d) What I've learned	

THINK ABOUT WHAT YOU WANT TO FIND OUT

3 Think of some questions about the topic and write a list in part (c).

4 Find the information you need to answer the questions in part (c). Write the answers in part (d).

5 Take turns to share the information with your class. Talk about:

- The topic, your questions and the answers.
- Some information that surprised you.
- Some extra information you found out.
