Personal Best B1 Mapping: In-class, Blended and Online Teaching

The following mapping has been designed in light of current requirements in EOIs (Escuelas Oficiales de Idiomas) and other schools, where blended and online teaching strategies are becoming increasingly common. All of the activities can be found in the Personal Best B1 series. This outline can be used as either an activity guide or a series of suggestions for teachers using different strategies. The blended learning activities include activities that can be done at home (without the internet), which can then be revised or reinforced in the classroom.
